August 2023

Greetings and welcome to The Career Chronicle, the monthly newsletter from CSU's Career Center. Our goal is to keep you in the know about our talented students, campus events, and engagement opportunities that can help you achieve your career related goals. Whether you're an alum, employer, or simply interested in staying informed, we’re thrilled to have you as a part of our community. So sit back, relax, and let us keep you up to date with the latest news and insights from the world of career development at CSU.

Announcements

School is back in session!
We welcome both new and returning students back to our vibrant campus. We are thrilled to have a community of learners and explorers. We are here to support our diverse students every step of the way in their career journey. We can't wait to see the incredible contributions our students will make during their time here.

Professional Development Opportunities

- CareerOneStop serves as an excellent hub for delving into professional development and training resources. This comprehensive platform is managed by the US department of labor. The business center within CareerOneStop offers valuable assistance with recruitment, training, and cultivating a resilient workforce.

- MPACE's 2023 Annual Conference is December 6-8 this year and will be held in Denver. Barb Richardson, Director of Operations & Assessment in the Career Center at CSU, will be co-hosting.

Diversity, Equity, and Inclusion

- Labor Day in the United States is a federal holiday observed on the first Monday of September each year. It honors and celebrates the contributions of the American labor movement and the achievements of workers. The holiday acknowledges the social and economic achievements of workers and their role in the development and achievements of the United States. Labor Day often marks the end of summer season and is associated with various celebrations, parades, picnics, and family gatherings. It also symbolizes the value of workers and their rights as well as the programs that have been made in terms of Labor laws, workplace conditions, and workers’ rights.

- The Jewish calendar operates on lunar patterns. Rosh Hashanah, marking the onset of the Jewish High Holidays serves as the Jewish new year and will be observed this year from Friday September 15th to Sunday September 17th. Shortly after follows Yom Kippur the most revered holiday in the Jewish calendar. Yom Kippur involves fasting, prayer, and reconciliation, holding immense significance. This year Yom Kippur falls on Sunday September 24th through Monday September 25th. Displaying awareness for employees and students in your organization who may seek to participate in High Holiday services is a valuable means of supporting members in the Jewish community.

- To ensure continued access to diversity materials and training opportunities, explore our DE&I Toolkit.

Student Trends

- In the past academic year approximately one third of college students utilized artificial intelligence tools to support their schoolwork while nearly half of students used it for homework assignments. Some see benefits such as instant access and the opportunity to explore diverse topics. However, it is essential to be mindful of potential downsides of using AI in school work, such as the risk of encountering inaccurate or misleading information which could inadvertently lead to the propaganda of misinformation and the rise of ethical concerns.

- College graduates seek employment opportunities that align with their values and passions. They have observed the experiences of previous generations and understand that sacrificing everything for their employer might not always yield the desired rewards. Instead of settling for conventional positions with large corporations, graduates are exploring side hustles and freelancing opportunities. The graduating class of 2023
prioritizes jobs that resonate with their personal values and interests even if it means earning a lower income.

Local Business Resources

Join Your Sector's Partnership Committee
Sector partnerships build industry-led partnerships in a shared labor market region, strengthening regional economies and aligning education and training systems with industry needs. Sector partnerships also focus on other issues related to an industry's competitiveness. This ensures deeper, broader, and longer-term industry engagement and success.

- Northern Colorado Construction Sector Partnership
- Northern Colorado Health Sector Partnership
- Northern Colorado Hospitality Sector Partnership
- Northern Colorado Manufacturing Partnership
- Northern Colorado Nonprofit Sector Partnership

Work-Based Learning Reimbursement Program
In partnership with the Fort Collins Area Chamber of Commerce, the Work-Based Learning Incentive Program (WBLIP) is a state-funded program offering financial reimbursements of up to $10,000 to businesses to create or expand high-quality work-based learning programs. Additional incentives are available, including for small and/or rural businesses. This program ends in May 2024.

WBLIP will provide funding to assist with the expenses for developing or expanding existing work-based learning programs, including but not limited to training costs.

**Work-based Learning Quality Expectations**

**Employer Incentive Checklist**

The Career Center recently hosted an information session about this program. A recording will be available on our website in the coming weeks.

For more information and to sign your business up for Work-Based Learning and this reimbursement program, contact: Heather Everett – WBLIP Manager: heverett-wblip@outlook.com
Career Center Information

To ensure each employer receives the attention and expertise it deserves, disciplines are now divided among our three Employer Relations Coordinators based on college and area of study. This means you can look forward to even more tailored and personalized support from our team. We look forward to working with you to achieve your goal of hiring CSU students!
